PROFESSIONAL SUMMARY

Registered Civil Engineer with experience in tender and bid coordination, cost estimation, supplier sourcing, and commercial documentation for construction projects across the Philippines, Singapore, and international markets. Skilled in translating drawings and specifications into accurate, compliant bids while coordinating technical, commercial, and procurement requirements from tender review through submission.

WORK EXPERIENCE

MILLION LIGHTING CO PTE LTD - MARCE PROJECTS CORP. (REMOTE)

Quantity Surveyor

Singapore - Philippines

August 2024 – Present

- Managed multiple tenders from initial review through final submission, coordinating pricing, supplier quotations, technical clarifications, scope requirements, and commercial documentation
- Prepared cost estimates, quotations, and tender submissions for architectural and decorative lighting packages across residential, commercial, hospitality, façade, and mixed-use developments in Singapore and international markets.
- Performed quantity take-offs and validated client BOQs using PlanSwift, identifying scope gaps and discrepancies before pricing and submission.
- Prepared detailed cost analyses, pricing schedules, bid comparisons, and commercial proposals to support competitive and commercially viable tender offers.
- Sourced and evaluated international manufacturers, negotiated competitive pricing, and developed value-engineered alternatives that balanced cost, specification compliance, and design intent.
- Reviewed tender requirements and coordinated technical and commercial inputs to ensure submissions were complete, accurate, compliant, and delivered on schedule.
- Supported post-tender activities including pricing revisions, supplier coordination, procurement documentation, progress claims, and commercial follow-up.

STA. CLARA INTERNATIONAL CORPORATION (ON-SITE)

Junior QA/QC Engineer

Philippines

March 2024 - July 2024

- Reviewed construction drawings, specifications, and method statements to verify compliance with project requirements and approved standards.
- Conducted site inspections for roadworks, drainage, and related civil works, documenting quality issues and coordinating corrective actions with the project team
- Prepared and maintained QA/QC documentation, inspection reports, checklists, and supporting records for project monitoring and compliance.
- Coordinated with site engineers, contractors, and project stakeholders to resolve technical discrepancies and ensure work was completed in accordance with approved plans and specifications.
